Flowering Schedule at The Dawes Arboretum

This flowering schedule is based on a select number of trees and shrubs at The Dawes Arboretum. It reflects the notes and photographs that Mike Ecker, Director of Horticulture, has taken over 23 years. Bloom times are variable, depending on weather. This chart interprets a "normal" year, and shows you when you would most likely see the listed plants in bloom at The Dawes Arboretum. For a complete list of flowering times, please contact the Horticulture Department at 800.44.DAWES.
