

**Middle School Connections 2016-17**

# Home School INVESTIGATIONS

---

*at The Dawes Arboretum*

Attend a home school program specifically designed for students ages 11-13. Practice thinking logically and critically, analyzing and interpreting data, using scientific tools and techniques and learning more about our natural world. Sessions are held rain or shine; please dress for both indoor and outdoor activities. Registration is required at [www.dawesarb.org/learn/calendar](http://www.dawesarb.org/learn/calendar).

**September 20 - Dynamic Duos**

*Learn about interrelationships in nature as we explore symbiotic relationships here at The Dawes Arboretum. Be a citizen scientist as you walk the Nature's Notebook Phenology Trail.*

**January 17 - The Global Climate**

*Study the connections between carbon dioxide and the Earth's climate. Learn ways to conserve natural resources and help our world.*

**May 16 – Alien Invasion**

*Research characteristics of invasive species and participate in an alien control project here at The Dawes Arboretum.*
