

LITTLE BUCKEYE Imagination Session at The Dawes Arboretum

Learn with a group as the creative educators at The Dawes Arboretum bring families closer to the wonders of the natural world. These programs, designed for children ages 3 to 8, keep the body moving and the brain exercising as science is combined with games, crafts, stories and music. Sessions are conducted from 2pm to 3pm on Wednesdays (June through August 9th). The program is free and registration is not required.

Wednesday, June 14, 2017 *Life in a Tree*

Who might like to live in a tree? Birds, squirrels, insects, lichens, you?
Try your hand at building a bird nest.

Wednesday, June 21, 2017 *Rolypolyology*

Dig in and join the hunt for tiny forest crustaceans.

Wednesday, June 28, 2017 *My Tree Book*

Notice the wide variety of shapes in trees. Create a souvenir book of leaf rubbings.

Wednesday, July 5, 2017 *Magic Rocks and Fossils*

Look closer at the oldest building blocks around.

Wednesday, July 12, 2017 *What's a Herp?*

Sing, play, move like an amphibian and meet our resident reptiles.

Wednesday, July 19, 2017 *Garden Fairy House*

Build an enchanting miniature home alongside our lovely gardens.

Wednesday, July 26, 2017 *Water Birds*

Listen to calls, identify adaptations and seek out water birds at the pond.

Wednesday, August 2, 2017 *Phenology: Nature's Clock*

Nature cycles with the seasons. Can you put the events in order?

Wednesday, August 9, 2017 *Walk and Wonder*

Take a guided, stroller-friendly, interpretive walk with stops to discover nature.

Check out our online calendar at dawesarb.org for more exciting opportunities!
